**FOR IMMEDIATE RELEASE**

**CAMCORP NAMES NEW CHIEF OPERATING OFFICER**

**Lenexa, Kansas, December 7, 2020** -- CAMCORP, a manufacturer of high-performing air pollution control and pneumatic conveying equipment, is proud to announce the addition of Dan Bruyn as Chief Operating Officer of CAMCORP, Inc. effective November 16, 2020. This is a new role for the company.

Bruyn has 25 years of successful operations experience as a leader in manufacturing environments. "I was struck by his acumen as a leader and team player with an eye for improving efficiency and increasing the bottom line," says John Rothermel, President, Scheuch USA, Inc. "Dan establishes clear direction and sets high expectations for performance. I have no doubt he will create a culture of innovation, engagement, commitment, and accountability." Scheuch USA, Inc. is the parent company of CAMCORP.

Bruyn will be responsible for engineering, manufacturing, project management, and administration under the Operations umbrella at CAMCORP. "As CAMCORP continues to grow, I am honored to be part of a team that will constantly innovate and provide our customers with the highest quality clean air solutions," Bruyn says.

Bruyn was most recently Director of Operations at Garsite, LLC, where he led the business through a divestiture and financial turnaround. Earlier in his career, he focused on continuous improvement through the implementation of Lean transformations at Gardner-Denver, Harley-Davidson, and Pentair. He is a graduate of the University of Missouri – Columbia where he earned both his Master of Engineering, Industrial & Manufacturing Systems, and a Bachelor of Science in Industrial Engineering.

**About CAMCORP**

CAMCORP dust collection and bulk material handling solutions can be standard or modified to fit any application. With nearly three centuries of combined experience, our experts have tackled every application and realize there is not a one size solution fits all. Passionate, hard-working employees and in-house manufacturing experts take pride in and stand by their work. Not only do we design, build, and support reliable air pollution control and bulk material handling equipment, but we also build trust in all that we do. Air filtration and pneumatic conveying needs are ever-changing.
